FEDERAL CYBERSECURITY | SYSTEMS | DELIVERY

Clear signals. Defensible evidence. Mission-ready execution.

SBA-CERTIFIED SDVOSB | VOSB

BOLD TECH. STRAIGHT UP.

MISSION FIT

WTC turns federal cyber requirements into defensible decisions, evidence, and execution.

Whiskey Tech Consulting helps federal agencies, defense organizations, and prime contractors move RMF, ATO, compliance, and systems work from stalled requirements to mission-ready outcomes.

CORE CAPABILITIES

01 RMF and ATO Execution

NIST SP 800-53 Rev. 5, SSPs, eMASS support, evidence mapping, POA&Ms, and authorization-package quality.

02 DoD Cybersecurity Compliance

STIG governance, PPSM support, continuous monitoring, control validation, remediation planning, and compliance documentation.

03 SCA-R and Assessment Readiness

Evidence inventories, inheritance validation, test-result review, traceability analysis, gap closure, and assessment preparation.

04 Systems Engineering and Program Delivery

Requirements traceability, data flows, system boundaries, integration, governance, schedules, risks, and decision support.

WHY WTC

- Senior leadership remains close to delivery and accountable for quality.
- Requirements, engineering, evidence, and decision ownership stay connected.
- Risk is communicated plainly to technical, program, assessment, and contracting teams.
- Public claims remain supportable and client-sensitive information stays protected.
